Limestone Coast 'Regions in Focus' roadshow next week

The next event in a series of eight state-wide 'Regions in Focus' roadshows will be held in the Limestone Coast region next week.

Regional Development Minister Geoff Brock said the roadshow would be held at The Barn at Mt Gambier on Tuesday, August 4.

"These roadshows feature structured workshops with local community and business leaders, Regional Development Australia Boards and local councils in both regions.

"The focus of these workshops is on jobs, investment and economic diversity," Mr Brock said.

"Discussions will be centred on collaboratively determining and refining each region's main economic priorities and identifying their alignment with the Ten Priorities in the State Government's Economic Plan.

"This is not an exercise in telling our regions what to do. It's about a partnership, building on the strengths of each region and assessing the best steps to take from here.

"The roadshows are also about the government supporting the optimism and innovation in our regions, drawing the threads together, and in collaboration creating an environment in which regional communities can genuinely grow and flourish.

"The results from those workshops follow on from the recent Regional Summit in Whyalla and will help identify how the government can help our regions achieve their development goals," Mr Brock said.

"We want these workshops to build on the important work already done and the new initiatives for the regions in last month's State Budget, totalling more than \$187 million over the next four years.

"The regions will also share in tax reductions of almost \$670 million over four years as a result of the State Government's tax reform package – with changes directly targeted at removing barriers to business investment and expansion for key regional industries.

"Regional South Australia will also benefit from the full package of State Government tax changes including abolishing stamp duty on non-residential property transfers, abolishing the Save the River Murray Levy and extending the payroll tax rebate for another 12 months.

"My focus is firmly on building stronger regional communities and improving their wellbeing.

“As Regional Development Minister, I see a significant part of my role as bringing people together to address their challenges and create positive benefits by working with them to generate great ideas and creating an atmosphere and energy for change.

“It’s absolutely vital that our regions have people with the skills and knowledge to lead regional development because they understand better than anyone else what makes their communities such rewarding places in which to grow up, to live and work.

“I’m really keen for us to collectively look at ways we can accelerate change by identifying game-changing actions we can take together,” Mr Brock said.

‘Regions in Focus’ roadshows have already been held in several regions – the Barossa, Far North, Adelaide Hills and Yorke and Mid North.

The Limestone Coast roadshow will be held at The Barn in Mr Gambier from 10.30am-2.30pm.
